

Aman Sharma

Data Science Intern | Python | Machine Learning | NLP

Email: aman.sharma@gmail.com | Phone: +91-9876543210

LinkedIn: linkedin.com/in/amansharma | GitHub: github.com/amansharma

Professional Summary

Motivated B.Tech CSE student with hands-on experience in machine learning, data analysis, and NLP projects. Skilled in building end-to-end data science solutions including model development, evaluation, and deployment.

Technical Skills

- 1 Languages: Python, SQL
- 2 Libraries: Pandas, NumPy, Scikit-learn, TensorFlow
- 3 Visualization: Matplotlib, Seaborn, Power BI
- 4 Technologies: Machine Learning, Deep Learning, NLP
- 5 Tools: Git, Jupyter Notebook, Flask
- 6 Concepts: Data Cleaning, EDA, Feature Engineering, Model Evaluation

Projects

- 1 **Resume Matcher System:** Developed NLP-based application using Sentence-BERT to match resumes with job descriptions. Improved skill matching using cosine similarity.
- 2 **Customer Churn Prediction:** Built classification model using Random Forest. Applied SHAP for explainable AI insights.
- 3 **Movie Recommendation System:** Designed hybrid recommender (content + popularity). Deployed web app using Flask.

Education

B.Tech in Computer Science Engineering | XYZ College | 2022 – 2026

Certifications

- 1 Machine Learning – Coursera
- 2 Data Analysis with Python

Additional Information

- 1 Strong problem-solving and analytical thinking
- 2 Basic understanding of statistics and probability
- 3 Interested in real-world data-driven applications
